 - 2. Non-conforming uses of land, buildings and structures, as well as siting, size or dimensions of buildings and structures are governed by the provisions of the *Local Government Act*.

PART FIVE: GENERAL REGULATIONS

5.1 Applicability

Except as otherwise specified in this bylaw, all provisions of Part Five apply to all zones established under this bylaw.

5.2 Siting

- (a) The siting regulations of this bylaw apply to parcels and, notwithstanding the generality of the foregoing, to bare land strata lots.
- (b) The interior side parcel line requirements of this bylaw shall not apply to strata lots under a registered plan pursuant to the *Condominium Act* where there is a common wall shared by two or more dwellings within a building.

5.3 Setback Exceptions

Except as otherwise provided in particular zones, the setback requirements of this bylaw do not apply with respect to:

- (a) a pumphouse, fences;
- (b) gutters, cornices, sills, belt courses, bay windows, chimneys, exterior finish, heating or ventilation equipment if the projections do not exceed one metre, measured horizontally; and
- (c) eaves, unenclosed stairwells or balconies, canopies and sunshades if the projections, measured horizontally, do not exceed:
 - (1) 1.5 metres in the case of front and side yards, or
 - (2) 2 metres in the case of rear yards,

and no other features may project into a required setback area.

5.4 Storage of Junk

No parcel shall be used for a junk yard.

5.5 Attached Garage

A garage or carport attached to a principal building is deemed to be a portion of the principal building.

5.6 Number of Dwellings Per Parcel

Not more than one dwelling shall be located on any one parcel except as specifically permitted by this bylaw.

5.7 Accessory Buildings and Structures

- (a) Buildings and structures accessory to principal uses, buildings and structures are permitted in any zone.
- (b) No accessory building or structure shall be situated on a parcel unless the principal building, to which the accessory building is incidental, has been erected or will be erected simultaneously with the accessory building on the same parcel.
- (c) Notwithstanding Section 5.7(b), an accessory building may be situated on a parcel contiguous to a parcel on which the principal building is situated.
- (d) An accessory building shall not be used as a dwelling except as otherwise provided in this bylaw.
- (e) One greenhouse, not exceeding 25 square metres in floor area shall be permitted per parcel as an accessory residential structure. Greenhouses exceeding 25 square metres in floor area shall be considered as agricultural buildings and shall respect the relevant agricultural building setbacks from parcel lines.

5.8 The following special height regulations apply:

- (a) where a height limit for buildings and structures does not exist within any zone under this Bylaw, the height limit for buildings and structures is 10 metres.
- (b) Notwithstanding any height limit in this bylaw, the following items may be of unlimited height: industrial crane, grain elevator, barn, tower tank and bunker, retaining wall, radio or television antenna, church spire, belfry and dome, monument, smoke and fume disposal and dispersal facilities, drive-in theatre screen, stadium bleacher, lighting pole, windmill, silo, elevator shaft, stair tower and scenery loft.

5.9 On a corner parcel contiguous to a highway intersection, no structure shall be allowed at a height greater than 1.0 metre above the established elevation of the centre point of intersecting highways, and within an area extending out from the corner of the parcel and bound by a line joining a point on each parcel line, a distance of 6.0 metres from the corner of the parcel. For greater certainty, a diagram shown as part of this section and labelled "Figure A" depicts the area described in this section.

FIGURE A

5.10 Fences

Except as otherwise specifically stated in this bylaw,

- (a) the height of a fence or wall shall be measured to the highest point from and perpendicular to a line representing the average grade level at the base; and
- (b) fences within a residential, commercial or industrial zone, except for lands within the Suburban Residential Zone wherein a fence, shall not exceed a height of 1.8 metres.

5.11 Home Occupation

- (a) A home occupation shall be enclosed within the interior of a principal building in which a dwelling is located or a permitted accessory building.
- (b) With respect to a home occupation, no material used in or resulting from the processing of a product shall be stored exterior to a building.
- (c) There shall be no variation from the external residential character of the dwelling in which a home occupational use is conducted.
- (d) In addition to the resident, no more than two persons shall be employed in a home occupational use on a parcel.

5.12 Bed and Breakfast Accommodation Regulations

In the zones permitted, bed and breakfast accommodation shall:

- (a) be completely contained within a single detached dwelling which is the principal use on the parcel;
- (b) be conducted by the principal resident who may employ not more than one person on the premises;
- (c) not involve the use of more than three rooms at any one time for guest accommodation;
- (d) with the exception of breakfast, not involve the provision of meals to transient visitors.

5.13 Setback from Watercourse

- (a) Notwithstanding any other provisions of this bylaw, no habitable building shall be located within 15 metres of the high water mark of a watercourse, lake or the sea.
- (b) Notwithstanding any other provision of this bylaw, no building used for the accommodation of livestock shall be located within 30 metres of the high water mark of a watercourse, lake or the sea.

5.14 Siting of Kennel Buildings

Within a zone in which kennels are a permitted use, buildings and structures for the accommodation of dogs including dog runs, shall not be located within 45 metres of a parcel line.

5.15 Residential Use in Non-Residential Zones

Notwithstanding the setback requirements of this bylaw, where a single detached dwelling is permitted in a commercial, industrial or institutional zone, the following setbacks shall apply:

Front:	7.5 metres
Interior Side:	10% of the lot width or 3 metres, whichever is less
Exterior Side:	4.5 metres
Rear:	4.5 metres

5.16 Residential Use of Water Lease Lots

Notwithstanding any other provision of this bylaw, a water lease lot shall not be used for residential purposes.

5.17 Minimum Setback from a Highway

Notwithstanding any other provision of this bylaw, no structure other than a fence shall be located within 4.5 metres of a highway other than a lane.

5.18 Mobile Home

A mobile home use shall only be permitted in those zones in which it is specifically listed as a permitted use.

5.19 Attached suite

For zones in which attached suites are permitted, the following regulations apply:

1. The attached suite shall be located within a principal single detached dwelling.
2. The attached suite shall not occupy more than 40% of the gross floor area of the dwelling.
3. The attached suite shall be legally constructed and inspected in accordance with the *British Columbia Building Code* and the CVRD Building Bylaw, and have the approval of the authorities responsible for domestic water supply.
4. The attached suite is only permitted if a report prepared by a Registered Onsite Wastewater Practitioner or a professional engineer with experience in wastewater systems approves the appropriate level of sewage treatment – Type 1, 2, or 3 – that would permit the requested total density on the parcel.
5. The attached suite shall not have a gross floor area in excess of 90 m².
6. The attached suite shall not be located on a parcel of land that has another attached suite or detached suite on it.
7. The attached suite shall through subdivision or strata plan, a separate title distinct from the title of the single detached dwelling for the parcel of land upon which it is located, and the owner shall, prior to the issuance of a building permit, register a covenant pursuant to Section 219 of the *Land Title Act* in favour of the CVRD against the title to the parcel which would prevent the subdivision or the registration of any form of strata plan under the *Strata Property Act*.

5.20 Detached suite

For zones in which detached suite units are permitted, the following regulations apply:

1. The detached suite shall be freestanding or attached to an approved accessory building;
2. A detached suite shall not be permitted on a parcel of land that is less than 0.2 hectares in area;
3. The detached suite shall be legally constructed and inspected in accordance with the *British Columbia Building Code* and the CVRD Building Bylaw, and have the approval of the authorities responsible for domestic water supply.
4. The maximum floor area of a detached suite shall not exceed 60 m² for a parcel of land smaller than 0.8 hectare, and shall not exceed 74 m² for a parcel of land that is 0.8 hectare or greater in area;
5. One additional on-site parking space shall be provided;
6. Approval as recommended in a report prepared by a Registered Onsite Wastewater Practitioner or a professional engineer with experience in wastewater systems approves the appropriate level of sewage treatment – Type 1, 2, or 3 – that would permit the requested total density on the parcel;
7. The detached suite and principal dwelling shall both have access to a licensed source of potable drinking water;
8. The detached suite shall not be in the form of a recreational vehicle nor park model unit;
9. Only one attached suite or detached suite is permitted per parcel;
10. An owner of the parcel of land shall occupy either the principal single detached dwelling or the detached suite;
11. Notwithstanding Section 5.22, the detached suite may be subdivided from the parcel upon which it is located only if:
 - i. it is in a zone which would allow for the proposed lot sizes following subdivision;
 - ii. the principal single detached dwelling and detached suites are so located as to allow for setback requirements to be met following subdivision;
 - iii. the approval of the Health Authority for sewage disposal has been obtained;
 - iv. all other requirements of subdivision are met.

If the parcel upon which the detached suite would be located is in a zone which would not allow for subdivision, the owner shall, prior to the issuance of a building permit for the detached suite, register a covenant on the parcel which would prevent its subdivision or the registration of any form of strata plan under the *Strata Property Act* on the parcel.

For parcels that meet the requirements of 9.i., ii., iii., and iv., following the subdivision, the dwelling that was formerly considered to be the detached suite will no longer be subject to the regulations of Section 5.20 of this Bylaw.

5.21 Contaminated Soil and Waste

Unless explicitly permitted in a zone, no parcel shall be used for the purpose of storing contaminated waste or contaminated soil, if the contaminated material did not originate on the same legal parcel of land that it is being stored on.

5.22 Covenant Required For More Than One Dwelling per Parcel

Parcels upon which there are located two or more dwelling units as permitted under this bylaw shall not be subdivided, nor shall any Strata Plan pursuant to the *Strata Property Act* be registered on the parcel or the buildings located on the parcel, and the owner(s) of the parcel shall enter into and register on the title of the parcel a covenant agreement to this effect as a pre-requisite to obtaining a building permit for the extra dwelling(s).

5.23 Commercial Cannabis Regulations

- (a) Both standard and micro cannabis production and processing are a permitted farm use of all parcels in the Agricultural Land Reserve, to the extent permitted by the Agricultural Land Reserve Use Regulation, and standard and micro cannabis production and processing may not be conducted concurrently on the same parcel.
- (b) Both standard and micro cannabis production and processing shall only be permitted with all required federal and provincial licenses, permits, and approvals.
- (c) Cannabis - Standard Production and Processing are subject to the following regulations:
 - i. all buildings, greenhouses and other structures used for either purpose must be located not less than 30 metres from all parcel lines, watercourses and wells, and not less than 100 meters from the foundation of any residential building not within the Agricultural Land Reserve;
 - ii. all parcels used for either purpose shall be located not less than 150 metres from any parcel line of a park zone, a parcel with a school or childcare facility, and any park, and not less than 100 metres from all parcel lines of the following zones: comprehensive development, institutional, mixed-use or residential zone;
 - iii. on industrial-zoned parcels, all production activities must occur within an enclosed structure and no outdoor cultivation, production or storage is permitted; and,
 - iv. the total gross floor area of all buildings used for the production of cannabis must not exceed 500 m², and the combined gross floor area for all buildings and structures used for cannabis production and processing on any parcel must not exceed 1,000 m².
- (d) Cannabis – Micro Production and Processing are subject to the following regulations:
 - i. all buildings, greenhouses and other structures used for either purpose must be located not less than 15 metres from all parcel lines, 30 meters from watercourses, wells, and not less than 75 meters from the foundation of any residential building not within the Agricultural Land Reserve;
 - ii. all parcels used for either purpose shall be located not less than 150 metres from any parcel line of a park zone, a parcel with a school or childcare facility, and any park, and not less than 75 metres from all parcel lines of the following zones: comprehensive development, institutional, mixed-use or residential zone;
 - iii. on industrial-zoned parcels, all production activities must occur within an enclosed structure and no outdoor cultivation, production or storage is permitted; and,
 - iv. the combined gross floor area for all buildings and structures used for cannabis production and processing on any parcel must not exceed 400m².
- (e) Farm gate sales of cannabis produced on the farm is a permitted farm use of all

parcels in the Agricultural Land Reserve, subject to provincial retail sales licensing requirements.

5.24 Swimming Pool Fencing

Swimming pools shall be enclosed in a structure or be surrounded by a fence not less than 1.5 metres and not more than 1.8 metres in height, designed to prevent climbing, and where equipped with gates, the gate shall be operated by hinges and a lock and shall be able to be opened freely from the inside only.

5.25 Section 514 Subdivision Regulation

The minimum size for a parcel outside of the Agricultural Land Reserve that may be subdivided under Section 514 of the *Local Government Act* throughout Electoral Area H - North Oyster/Diamond is 25 hectares, or the minimum parcel size of the zone within which the parcel of land is located, whichever is larger.

5.26 Agricultural Land Reserve

Where any parcel of land lies within the Provincial Agricultural Land Reserve (ALR), all parcels must be used in accordance not only with the various provisions of this Bylaw, but also in accordance with the *Agricultural Land Commission Act*, the Regulations, Orders, Decisions of the Agricultural Land Commission.

I-3	Ultra Light Industrial	0.2 ha	0.4 ha	0.8 ha
U-1	Utility (LNG)	10 ha	10 ha	10 ha

Note: ha = hectare

* However, provided that in the case of strata title mobile home parks, the minimum parcel size shall be 325 square metres for a single wide mobile home and 460 square metres for a double wide mobile home, but in no case shall exceed a density of 15 units per hectare.

** In the case of bare land strata subdivision, the minimum parcel size may vary within the development, but in no case shall the number of strata lots created exceed the density requirements as stated above had a conventional subdivision been undertaken.

*** Existing parcels in the P-1 Zone may not be subdivided to lot sizes smaller than 8.0 hectares, however, parkland acquired at a smaller parcel size may be designated P-1 through a bylaw amendment.

13.2 (a) The minimum parcel size provisions specified in Section 13.1 may be decreased by as much as five (5%) percent in a case where due to:

1. unusual terrain;
2. the size or configuration of the parcel; or
3. additional highway dedication being required above and beyond what is necessary to serve the parcels to be created;

the parcel size as stated in Section 13.1 cannot be achieved and therefore subdivision would be precluded provided that at the decreased size all other requirements of this and any other relevant bylaws may be met.

(b) The provisions of Section 13.2(a) shall apply to not more than one parcel to be created.

(c) Undersized Parcels

Parcels that exist as separate and titled parcels in the records of the Land Titles Office, and the time of the passage of this bylaw or;

parcels that have been reduced to a size that is less than the allowable minimum parcel size, as a result of highway widening by the Ministry of Transportation and Highways or;

parcels that have been created under the authority of a statute of the Province of B.C.;

may be occupied for the uses permitted in the zone in which they are located, subject to all other regulations of this or any other bylaw, regulation or statute.

13.3 Notwithstanding the requirements of Section 13.1, existing parcels which are smaller than permitted in these regulations may be consolidated and re-subdivided into new parcels, provided that:

- (a) all parts of all new parcels are contiguous;
- (b) no additional lots are created;
- (c) the boundary change does not result in the reduction of either parcel by 20% or more of its original size;
- (d) the requirements of this bylaw respecting siting of buildings is complied with.

13.4 Notwithstanding the requirement of Section 13.1

- (a) where a portion of a parcel is physically separated from the remainder of the parcel by a public road or another parcel, the physically separated portion may be subdivided from the remainder of the parcel, to an absolute minimum area of 2000 m² where the parcel is serviced with community water, and 1 hectare where the parcel is not serviced with community water. This regulation only applies to parcels and public roads in existence at the date of adoption of this bylaw.
- (b) where a parcel is cut in two by a jurisdictional boundary line between a municipality and the electoral area the parcel may be subdivided along the jurisdictional boundary line.

13.5 No subdivision or boundary adjustment, which creates new parcels separated by a road or another parcel, shall be approved unless a covenant is registered in the name of the Cowichan Valley Regional District prohibiting the further subdivision of the

newly created severed parcel prior to subdivision approval. This covenant requirement also applies to new dedications of public road, occurring outside of the subdivision process. Even in the event that the Ministry responsible for creating new roads neglects to register the covenant against the title, no subdivision of a separated parcel shall be permitted, other than in conformity with the regulations of the zone in which the parcel is located.

- 13.6** The minimum frontage of a parcel shall be ten (10) percent of the perimeter of that parcel.
- 13.7** Notwithstanding the provisions of Section 13.6 the minimum frontage may be reduced for lots on a road curve with a radius of 80 metres or less subject to the required frontage being attained at the required front yard setback as stated for the zone in which the parcel is situated.
- 13.8** Panhandle lots: When panhandles are created, as an integral part of a parcel, the frontage requirement as specified in Section 13.6 shall not be calculated for the panhandle portion fronting on the highway, but for the width of the lot area fronting on the extension of the panhandle as shown in Figure B.

FIGURE B

- 13.9** Where a parcel is a panhandle lot the access strip (or panhandle) shall not be calculated as part of the parcel area for purposes of determining minimum parcel size.
- 13.10** (a) Where a parcel is a panhandle lot capable of further subdivision, the panhandle shall be of adequate width to provide a future road in the event the parcel undergoes further subdivision.
(b) The further subdivision of a panhandle lot shall be conditional upon the dedication of the panhandle as a public road (highway).
- 13.11** The minimum parcel size provisions as specified in Section 13.1 shall not apply:
- (a) where the parcel being created is to be used solely for the unattended equipment

necessary for the operation of:

- i) a bus shelter, railway station, public transit station, excluding airports;
- ii) a community water system;
- iii) a community sewer system;
- iv) a community gas distribution system;
- v) a community radio or television receiving antenna;
- vi) a radio or television broadcasting antenna;
- vii) a telecommunication relay station;
- viii) an automatic telephone exchange;
- ix) an air or marine navigational aid;
- x) other public utilities not specifically listed but considered to be similar in nature to those uses listed in i) through ix) above;

(b) to parks; and

(c) where the owner agrees in writing to registering a condition or covenant pursuant to Section 215 of the *Land Title Act* in favour of the Regional District at the time the subdivision is registered, and shall restrict or prohibit the construction of buildings or structures on, and/or the use of any parcel.
