           

          |  

 

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| # 815 - Arbutus Ridge Sewer

Infrastructure Condition Assessment and Capital Plan 3717 Arbutus Drive North, Cobble Hill, BC

### PROPERTY STATISTICS AND REPORT SUMMARY

System Replacement Cost Estimate	\$12,939,002	
Number of Users	646	
Replacement Cost Per User	\$20,029	
Annual Replacement Cost (40 Years)	\$142,805	per year
Annual Replacement Cost (80 Years)	\$159,741	per year
10 Year Capital Plan Total	\$3,150,000	
10 Year Operations and Maintenance Plan Total	\$156,000	

#### **PROPERTY DESCRIPTION**

The Arbutus Ridge Sewer System started construction in 1987 and includes the phases outlined in the table below.

Development	Year Installed	Source
Collection System	1987	Record Drawings (85065C, 85065J-5)
Wastewater Treatment Plant	1994	Record Drawings (85065B2)
Country Club Parkway	1994	Record Drawings (85065Y)
Greenside Place	2012	Record Drawings (85065-04)

### **PROJECT TEAM**

# 815 - Arbutus Ridge Sewer

Infrastructure Condition Assessment and Capital Plan 3717 Arbutus Drive North, Cobble Hill, BC

Date Prepared

July 18, 2018

### **REPORT NOTES**

Date / Revision	Contact	Comment
November 21, 2017	Adam Greenwood	The visual reviews were completed on November 21-24,
	and Kieran Bertsch	2017 by Adam Greenwood and Kieran Bertsch of MH.
		During our review of the systems we were accompanied by
		Mr. Todd Etherington and Mr. David Parker, who provided
		access to each system.
March 2, 2018	Caleb Light	Rob Grant and Andrea Kross from CVRD provided the
		geodatabase to MH. Caleb Light from MH tabulated the
		length of infrastructure in the developed area of the system
		from the database. The GIS items are the difference
		between the record drawings and the length of
		infrastructure tabulated in the geodatabase.
March 8, 2018	Adam Greenwood	Draft inventory assessment was issued to CVRD for review.
	and Kieran Bertsch	
July 4, 2018	Adam Greenwood	Updated draft inventory assessment was issued to CVRD for
	and Kieran Bertsch	review.
July 18, 2018	Adam Greenwood	Updated inventory assessment was issued to CVRD during
	and Kieran Bertsch	the March 27, 2018 review meeting. Updates included the
		following tasks:
		1) Reorganize linear assets based on street names
		2) Complete building asset management seperately (to be
		completed by Chris Raudoy)
		3) Include disclaimer on cost estimates
		4) Create seperate tables for O&M tasks and Capital Plans
		and update actions to Operations, Maintenance, Capital
		Renewal and Capital Upgrade/New

741

# 815 - Arbutus Ridge Sewer

Infrastructure Condition Assessment and Capital Plan 3717 Arbutus Drive North, Cobble Hill, BC

Date Prepared July 18, 2018

# **10 Year Capital Plan and Operations and Maintenance Plan**

The Capital Plan and Operations and Maintenance Plan outlined below are based on the findings of the initial condition assessment. The tasks identified in these plans should be completed within the next 10 years to inform the necessary infrastructure maintainance, rehabilitation and replacement work to maintain the appropriate level of service for the users of the system. The findings of the initial condition assessment should be reviewed by the CVRD to ensure they reflect the current condition of the system.

# Table 1: 10 Year Capital Plan - DRAFT

Timing	Item	Asset ID	Asset Code	Type of Work	Recommendation Description	Value	Total
Critical	1						
Critical (0 - 1 Year)	2						\$0
(0-11eal)	3						
	4						
Important (1 - 2 Year)	5						\$0
(1-21681)	6						
Short Term (2 - 5 Year)	7	1	ALL		Construct new MBR wastewater treatment in existing RBC chambers (scheduled), replace communications, and inspect/assess the condition of the equipment remaining in place and determine replacement timing/phasing.	\$3,000,000	\$3,150,000
	8	2	S-STP-DF-15	Capital Upgrade/New	Use raised mound as new disposal field (scheduled).	\$150,000	
	9						
	10						
Medium Term	11						\$0
(5 - 10 Year)	12						
						Total	\$3,150,000

# Table 2: 10 Year Operations and Maintenance Plan - DRAFT

Timing	Item	Asset ID	Asset Code	Type of Work	Recommendation Description	Value	Total
	1						
Critical	2						\$0
(0 - 1 Year)	3						
	4						
Important	5						\$0
(1 - 2 Year)	6						
	7	3	ALL	Operations	Inspect/assess Arbutus Dr south lift station for deterioration to determine replacement timing/phasing.	\$2,000	
Short Term	8	4	ALL	Operations	Inspect/assess Marine Vista lift station for deterioration to determine replacement timing/phasing.	\$2,000	
(2 - 5 Year)	9	5	ALL	Operations	Inspect/assess Crab Pot Lane lift station for deterioration to determine replacement timing/phasing.	\$2,000	\$6,000
	10						
	11						
	12						
	13	6 to 45	ALL	Operations	Inspect/assess the collection system for sources of I&I and determine replacement timing/phasing.	\$100,000	
Medium Term	14	8, 20, 28 and 39	As Noted	Operations	Inspect/assess forcemains for deterioration to determine replacement timing/phasing.	\$50,000	\$150,000
(5 - 10 Year)	15						
	16						
	17						
						Total	\$156,000

**Disclaimer**: Cost estimates listed above are based on limited information and should only be considered as order of magnitude costs. Further assessment and design is required to improve the accuracy of these estimates.

apital Upgrade/New

Date Prepared July 18, 2018

# **10 Year Capital Plan and Operations and Maintenance Plan**

The Capital Plan and Operations and Maintenance Plan outlined below are based on the findings of the initial condition assessment. The tasks identified in these plans should be completed within the next 10 years to inform the necessary infrastructure maintainance, rehabilitation and replacement work to maintain the appropriate level of service for the users of the system. The findings of the initial condition assessment should be reviewed by the CVRD to ensure they reflect the current condition of the system.

## Table 1: 10 Year Capital Plan - DRAFT

Timing	Item	Asset ID	Asset Code	Type of Work	Recommendation Description	Value	Total
Critical	1						
Critical (0 - 1 Year)	2						\$0
(0 - 1 (64))	3						
	4						
Important (1 - 2 Year)	5						\$0
(1-2168)	6						
Short Term	7	1	S-LS-ELC-7	Capital Renewal	Upgrade electrical in the lift station.	\$30,000	
(2 - 5 Year)	8	1	S-LS-PP-8	Capital Renewal	Replace process piping in the lift station (scheduled).	\$100,000	\$130,000
(2 - 5 Tear)	9						
	10						
Medium Term	11						\$0
(5 - 10 Year)	12						
						Total	\$130,000

## Table 2: 10 Year Operations and Maintenance Plan - DRAFT

Timing	ltem	Asset ID	Asset Code	Type of Work	Recommendation Description	Value	Total
	1						
Critical (0 - 1 Year)	2						\$0
(0 - 1 fear)	3						
Important	4						
Important (1 - 2 Year)	5						\$0
(1-2 (ear)	6						
	7	1	S-LS-PMP-2 to S-LS-GEN-6	Operations	Inspect/assess the condition of the lift station, pumps, communications, flow meter, and generator, for deterioration to determine replacement timing/phasing.	\$20,000	
Short Term	8						\$20,000
(2 - 5 Year)	9						\$20,000
	10						
	11						
	12						
	13	2, 3, 5 to 35	ALL	Operations	Inspect/assess the collection system for sources of I&I and determine replacement timing/phasing.	\$80,000	
Medium Term	14						¢00.000
(5 - 10 Year)	15						\$80,000
	16						
	17						
						Total	\$100,000

**Disclaimer**: Cost estimates listed above are based on limited information and should only be considered as order of magnitude costs. Further assessment and design is required to improve the accuracy of these estimates.

## 830 - Maple Hills Sewer

Infrastructure Condition Assessment and Capital Plan 3504 Hidden Oaks Crescent, Cobble Hill, BC

### PROPERTY STATISTICS AND REPORT SUMMARY

System Replacement Cost Estimate	\$1,981,806	
Number of Users	60	
Replacement Cost Per User	\$33,030	
Annual Replacement Cost (40 Years)	\$43,873	per year
Annual Replacement Cost (80 Years)	\$24,467	per year
10 Year Capital Plan Total	\$100,000	
10 Year Operations and Maintenance Plan Total	\$45,000	

### **PROPERTY DESCRIPTION**

The Maple Hills Sewer System started construction in 1993 and includes the phases outlined in the table below.

Development	Year Installed	Source
Collection System	1993	CVRD Input
Wastewater Treatment Plant	1993	CVRD Input
Lift Station	1993	CVRD Input

### PROJECT TEAM

Austin Tokarek, Asset Coordinator Todd Etherington, Utility Operations Superintendent David Parker, Engineering Technologist III Rob Grant, GIS Supervisor Andrea Kross, GIS Technician I Adam Greenwood, Project Engineer Kieran Bertsch, E.I.T. Caleb Light, GIS

### 830 - Maple Hills Sewer

### Infrastructure Condition Assessment and Capital Plan 3504 Hidden Oaks Crescent, Cobble Hill, BC

Date Prepared

July 18, 2018

Date / Revision	Contact	Comment
November 21, 2017	Adam Greenwood	The visual reviews were completed on November 21-24,
	and Kieran Bertsch	2017 by Adam Greenwood and Kieran Bertsch of MH.
		During our review of the systems we were accompanied by
		Mr. Todd Etherington and Mr. David Parker, who provided
		access to each system.
March 2, 2018	Caleb Light	Rob Grant and Andrea Kross from CVRD provided the
		geodatabase to MH. Caleb Light from MH tabulated the
		length of infrastructure in the developed area of the system
		from the database. The GIS items are the difference
		between the record drawings and the length of
		infrastructure tabulated in the geodatabase.
March 8, 2018	Adam Greenwood	Draft inventory assessment was issued to CVRD for review.
	and Kieran Bertsch	
July 4, 2018	Adam Greenwood	Updated draft inventory assessment was issued to CVRD
	and Kieran Bertsch	for review.
July 18, 2018	Adam Greenwood	Updated inventory assessment was issued to CVRD during
	and Kieran Bertsch	the March 27, 2018 review meeting. Updates included the following tasks:
		1) Reorganize linear assets based on street names
		2) Complete building asset management seperately (to be
		completed by Chris Raudoy)
		3) Include disclaimer on cost estimates
		4) Create seperate tables for O&M tasks and Capital Plans
		and update actions to Operations, Maintenance, Capital
		Renewal and Capital Upgrade/New

Date Prepared July 18, 2018

### **10 Year Capital Plan and Operations and Maintenance Plan**

The Capital Plan and Operations and Maintenance Plan outlined below are based on the findings of the initial condition assessment. The tasks identified in these plans should be completed within the next 10 years to inform the necessary infrastructure maintainance, rehabilitation and replacement work to maintain the appropriate level of service for the users of the system. The findings of the initial condition assessment should be reviewed by the CVRD to ensure they reflect the current condition of the system.

### Table 1: 10 Year Capital Plan - DRAFT

Timing	Item	Asset ID	Asset Code	Type of Work	Recommendation Description	Value	Total
Critical	1						
Critical (0 - 1 Year)	2						\$0
(0 - i reary	3						
lucionationat	4						
Important (1 - 2 Year)	5						\$0
(1 - 2 reary	6						
Short Term	7	2	S-LS-COM-6 and S-LS-GEN-7	Capital Renewal	Replace the electrical and communications, and the generator in the lift station.	\$100,000	¢100.000
(2 - 5 Year)	8						\$100,000
	9						
	10						
Medium Term (5 - 10 Year)	11						\$0
(5 - 10 Tear)	12						
						Total	\$100,000

### Table 2: 10 Year Operations and Maintenance Plan - DRAFT

Timing	Item	Asset ID	Asset Code	Type of Work	Recommendation Description	Value	Total
	1						
Critical	2						\$0
(0 - 1 Year)	3						
Inconstant	4						
Important (1 - 2 Year)	5						\$0
(1-2 (Ear)	6						
	7	2	S-LS-PMP-8 and S-LS-PP-9	Operations	Inspect/assess the condition of the lift station, pumps and process piping.	\$10,000	
Short Term	8						
(2 - 5 Year)	9						\$10,000
(2 - 5 Tear)	10						
	11						
	12						
	13	1	ALL	Operations	Inspect/assess the condition of the wastewater treatment plant, RBC unit and process piping. Consider pumping to Twin Cedars (scheduled).	\$30,000	
Medium Term (5 - 10 Year)	14	3	S-FM-PP-10	Operations	Inspect/assess the condition of the forcemain for deterioration to determine replacement phasing/timing.	\$5,000	\$35,000
	15						
	16						
	17						
						Total	\$45,000

**Disclaimer**: Cost estimates listed above are based on limited information and should only be considered as order of magnitude costs. Further assessment and design is required to improve the accuracy of these estimates.

System Replacement Cost Estimate	\$15,137,098	
Number of Users	377	
Replacement Cost Per User	\$40,151	
Annual Replacement Cost (40 Years)	\$176,366	per year
Annual Replacement Cost (80 Years)	\$186,878	per year
10 Year Capital Plan Total	\$263,000	
10 Year Operations and Maintenance Plan Total	\$310,000	

#### **PROPERTY DESCRIPTION**

The Shawnigan Beach Sewer System started construction in 1978 and includes the phases outlined in the table below.

Development	Year Installed	Source
Lagoon System (includes Upper Disposal Field)	1978	Innova Report
Robertson Development	1980	Innova Report
Terrace Development	1980	Innova Report
Wildflower	1994	Record Drawings (10808)
Meadowview	1994	Innova Report
Gregory rd. Development	2000	Innova Report
MacFarlane Cres. Development	2006	Innova Report
Ingot Rd Development	2006	Record Drawings (1501-01-16)
Wastewater Treatment Plant Upgrades and Lower Disposal Field	2015	Innova Report

#### **PROJECT TEAM**

Austin Tokarek, Asset Coordinator Todd Etherington, Utility Operations Superintendent David Parker, Engineering Technologist III Rob Grant, GIS Supervisor Andrea Kross, GIS Technician I Adam Greenwood, Project Engineer Kieran Bertsch, E.I.T. Caleb Light, GIS

#### **REPORT NOTES**

Date / Revision	Contact	Comment
November 21, 2017	Adam Greenwood	The visual reviews were completed on November 21-24,
	and Kieran Bertsch	2017 by Adam Greenwood and Kieran Bertsch of MH.
		During our review of the systems we were accompanied by
		Mr. Todd Etherington and Mr. David Parker, who provided
		access to each system.
March 2, 2018	Caleb Light	Rob Grant and Andrea Kross from CVRD provided the
		geodatabase to MH. Caleb Light from MH tabulated the
		length of infrastructure in the developed area of the system
		from the database. The GIS items are the difference
		between the record drawings and the length of
		infrastructure tabulated in the geodatabase.
March 8, 2018	Adam Greenwood	Draft inventory assessment was issued to CVRD for review.
	and Kieran Bertsch	
July 4, 2018	Adam Greenwood	Updated draft inventory assessment was issued to CVRD for
	and Kieran Bertsch	review.
July 18, 2018	Adam Greenwood	Updated inventory assessment was issued to CVRD during
	and Kieran Bertsch	the March 27, 2018 review meeting. Updates included the following tasks:
		1) Reorganize linear assets based on street names
		2) Complete building asset management seperately (to be
		completed by Chris Raudoy)
		3) Include disclaimer on cost estimates
		4) Create seperate tables for O&M tasks and Capital Plans
		and update actions to Operations, Maintenance, Capital
		Renewal and Capital Upgrade/New

Infrastructure Condition Assessment and Capital Plan 3065 Gregory Road, Shawnigan Lake, BC

Date Prepared July 18, 2018

### **10 Year Capital Plan and Operations and Maintenance Plan**

The Capital Plan and Operations and Maintenance Plan outlined below are based on the findings of the initial condition assessment. The tasks identified in these plans should be completed within the next 10 years to inform the necessary infrastructure maintainance, rehabilitation and replacement work to maintain the appropriate level of service for the users of the system. The findings of the initial condition assessment should be reviewed by the CVRD to ensure they reflect the current condition of the system.

### Table 1: 10 Year Capital Plan - DRAFT

Timing	Item	Asset ID	Asset Code	Type of Work	Recommendation Description	Value	Total
Critical	1						
Critical (0 - 1 Year)	2						\$0
	3						
Important (1 - 2 Year)	4 12 ALL		Capital Upgrade/New	Inspect/assess Robertson lift station for deterioration to determine replacement timing/phasing. Install backup power and a second pump. Upgrade electrical and communications systems.	\$40,000	\$40,000	
. ,	5						
	6						
	7	5	S-STP-COM-14	Capital Upgrade/New	Upgrade lagoon electrical and communication systems.	\$9,000	
	8	6	S-STP-DF-23	Capital Renewal	Increase disposal field capacity depending on outcome of lagoon assessment.	\$100,000	
Short Term	9 9 ALL		Capital Upgrade/New	Inspect/assess Meadowview lift station for deterioration to determine replacement timing/phasing. Upgrade electrical and communications systems, and install backup power.	\$35,000	4044.000	
(2 - 5 Year)	10	13	ALL	Capital Upgrade/New	Inspect/assess Terrace lift station for deterioration to determine replacement timing/phasing. Install backup power and upgrade electrical and communications systems.	\$35,000	\$214,000
	11 14 ALL		Capital Upgrade/New	Inspect/assess Wildflower lift station for deterioration to determine replacement timing/phasing. Install backup power and upgrade electrical and communications systems.	\$35,000		
	12

## 850 - Kerry Village Sewer

Infrastructure Condition Assessment and Capital Plan 1070 Waterman Road, Mill Bay, BC

### **PROPERTY STATISTICS AND REPORT SUMMARY**

System Replacement Cost Estimate	\$3,920,429	
Number of Users	93	
Replacement Cost Per User	\$42,155	
Annual Replacement Cost (40 Years)	\$46,463	per year
Annual Replacement Cost (80 Years)	\$48,400	per year
10 Year Capital Plan Total	\$50,000	
10 Year Operations and Maintenance Plan Total	\$120,000	

### **PROPERTY DESCRIPTION**

The Kerry Village Sewer System started construction in 1984 and includes the phases outlined in the table below.

Development	Year Installed	Source
Collection System	1984	Innova Report
Wastewater Treatment Plant	2010	Record Drawings (1585-01_STP, 09175-101)
Rapid Infiltration Basin (RIB)	2011	Record Drawings (1585-01_RIB)
Briarwood Dr/Streamside Pl/Lilmac Rd (Forcemain)	2011	Record Drawings (1581-01)
Lift Station	2015	Record Drawings (121-22982-01)
Bourban Rd/Shawnigan Lake Rd (Forcemain)	2015	Record Drawings (121-22982-01)

### **PROJECT TEAM**

Austin Tokarek, Asset Coordinator Todd Etherington, Utility Operations Superintendent David Parker, Engineering Technologist III Rob Grant, GIS Supervisor Andrea Kross, GIS Technician I Adam Greenwood, Project Engineer Kieran Bertsch, E.I.T. Caleb Light, GIS

# 850 - Kerry Village Sewer

Infrastructure Condition Assessment and Capital Plan 1070 Waterman Road, Mill Bay, BC

**Date Prepared** 

July 18, 2018

Conta
Adam
and K

Date / Revision	Contact	Comment
November 21, 2017	Adam Greenwood	The visual reviews were completed on November 21-24,
	and Kieran Bertsch	2017 by Adam Greenwood and Kieran Bertsch of MH.
		During our review of the systems we were accompanied by
		Mr. Todd Etherington and Mr. David Parker, who provided
		access to each system.
March 2, 2018	Caleb Light	Rob Grant and Andrea Kross from CVRD provided the
		geodatabase to MH. Caleb Light from MH tabulated the
		length of infrastructure in the developed area of the system
		from the database. The GIS items are the difference
		between the record drawings and the length of
		infrastructure tabulated in the geodatabase.
March 2, 2018	Adam Greenwood	Draft inventory assessment was issued to CVRD for review.
	and Kieran Bertsch	
July 4, 2018	Adam Greenwood	Updated draft inventory assessment was issued to CVRD for
	and Kieran Bertsch	review.
July 18, 2018	Adam Greenwood	Updated inventory assessment was issued to CVRD during
	and Kieran Bertsch	the March 27, 2018 review meeting. Updates included the
		following tasks:
		1) Reorganize linear assets based on street names
		2) Complete building asset management seperately (to be
		completed by Chris Raudoy)
		<ol> <li>Include disclaimer on cost estimates</li> </ol>
		4) Create seperate tables for O&M tasks and Capital Plans
		and update actions to Operations, Maintenance, Capital
		Renewal and Capital Upgrade/New

Date Prepared July 18, 2018

## **10 Year Capital Plan and Operations and Maintenance Plan**

The Capital Plan and Operations and Maintenance Plan outlined below are based on the findings of the initial condition assessment. The tasks identified in these plans should be completed within the next 10 years to inform the necessary infrastructure maintainance, rehabilitation and replacement work to maintain the appropriate level of service for the users of the system. The findings of the initial condition assessment should be reviewed by the CVRD to ensure they reflect the current condition of the system.

## Table 1: 10 Year Capital Plan - DRAFT

## 860 - Youbou Sewer

Infrastructure Condition Assessment and Capital Plan 9385 Youbou Road, Youbou, BC

### PROPERTY STATISTICS AND REPORT SUMMARY

System Replacement Cost Estimate	\$1,578,535	
Number of Users	43	
Replacement Cost Per User	\$36,710	
Annual Replacement Cost (40 Years)	\$14,366	per year
Annual Replacement Cost (80 Years)	\$19,488	per year
10 Year Capital Plan Total	\$10,000	
10 Year Operations and Maintenance Plan Total	\$30,000	

### **PROPERTY DESCRIPTION**

The Youbou Sewer System started construction in 2005 and includes the phases outlined in the table below.

Development	Year Installed	Source
Collection System	2005	CVRD Input
Wastewater Treatment Plant	2005	CVRD Input

### **PROJECT TEAM**

Austin Tokarek, Asset Coordinator Todd Etherington, Utility Operations Superintendent David Parker, Engineering Technologist III Rob Grant, GIS Supervisor Andrea Kross, GIS Technician I Adam Greenwood, Project Engineer Kieran Bertsch, E.I.T. Caleb Light, GIS

# 860 - Youbou Sewer

### Infrastructure Condition Assessment and Capital Plan 9385 Youbou Road, Youbou, BC

Date Prepared

July 18, 2018

Contact	Comment
Adam Greenwood and Kieran Bertsch	The visual reviews were completed on November 21-24, 2017 by Adam Greenwood and Kieran Bertsch of MH. During our review of the systems we were accompanied by Mr. Todd Etherington and Mr. David Parker, who provided access to each system.
Caleb Light	Rob Grant and Andrea Kross from CVRD provided the geodatabase to MH. Caleb Light from MH tabulated the length of infrastructure in the developed area of the system from the database. The GIS items are the difference between the record drawings and the length of infrastructure tabulated in the geodatabase.
Adam Greenwood and Kieran Bertsch	Draft inventory assessment was issued to CVRD for review.
Adam Greenwood and Kieran Bertsch	Updated draft inventory assessment was issued to CVRD for review.
Adam Greenwood and Kieran Bertsch	Updated inventory assessment was issued to CVRD during the March 27, 2018 review meeting. Updates included the following tasks: 1) Reorganize linear assets based on street names 2) Complete building asset management seperately (to be completed by Chris Raudoy) 3) Include disclaimer on cost estimates 4) Create seperate tables for O&M tasks and Capital Plans and update actions to Operations, Maintenance, Capital Renewal and Capital Upgrade/New
	Adam Greenwood         and Kieran Bertsch         Caleb Light         Adam Greenwood         and Kieran Bertsch         Adam Greenwood

Date Prepared July 18, 2018

# **10 Year Capital Plan and Operations and Maintenance Plan**

The Capital Plan and Operations and Maintenance Plan outlined below are based on the findings of the initial condition assessment. The tasks identified in these plans should be completed within the next 10 years to inform the necessary infrastructure maintainance, rehabilitation and replacement work to maintain the appropriate level of service for the users of the system. The findings of the initial condition assessment should be reviewed by the CVRD to ensure they reflect the current condition of the system.

# Table 1: 10 Year Capital Plan - DRAFT

Timing	Item	Asset ID	Asset Code	Type of Work	Recommendation Description	Value	Total
Critical	1						
Critical (0 - 1 Year)	2						\$0
