

Day Twenty-Nine: May 29, 2020

LAWN TWISTER

Paint a “twister board” onto your lawn and have fun with all ages while getting some fresh air!

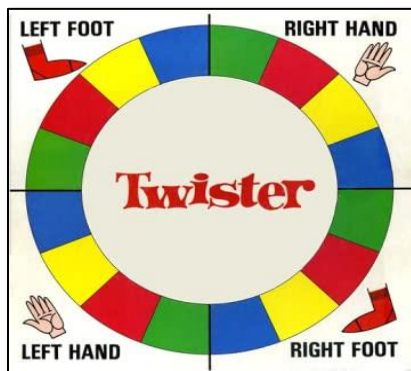

Materials Needed:

- Grassy area
- Pizza box
- Spray paint
- Straw
- Brad (paper crafting fastener)
- Sharpie marker

Instructions:

- 1) First, cut a circle out of a pizza box and use it as your template.
- 2) Use a piece of string and a ruler if you want your circles perfectly spaced and in a line.
- 3) Then use spray paint (contractors marking spray paint works well because it washes off) to paint different coloured circles on the grass.

- 4) Use the circle that you cut out of the pizza box to create a Twister Spinner like the original!
 - Divide into four sections (right hand, right foot, left hand, left foot) and label with a sharpie marker
 - Paint all four colours that are on your Twister board onto each section
 - Fasten the straw to the board with a brad so that it spins easily
- 5) Have fun!
