

# Local Emergency Response Neighbourhood Program

## RAPID DAMAGE SAFETY ASSESSMENT SUMMARY

### Instructions:

1. Use one line for each home, apartment, mobile home or condominium.
2. Summarize data from ***Rapid Damage Safety Assessment Form (Response Tools)***
3. Damage: Place and "X" in the appropriate box for the degree of damage the home has sustained. If you are unsure of the rating, rate it higher rather than lower.
4. Type of home: Give a brief description of the type of home. For example, two -story single-family dwelling, apartment, mobile home etc.
5. Brief comments: Give an explanation of the damage the home or property has sustained. For example, home off its foundation, broken water line, large crack in lawn, etc.
6. Submit to Captain for inclusion with ***Neighbourhood Communications Form (Response Tools)***

Street & House #	Damage **				Name of Family (if known)	Type of Home	Brief Comments
	0	1	2	3			
<b>TOTAL:</b>					<b>AUTHORIZED BY:</b>		

- \*\* KEY
- 0 = NO Visible Damage
  - 1 = MINOR DAMAGE. Home is still habitable. Examples: Minor buckling of floors or walls, broken windows, cracked chimneys, tree on house, blocking entrance.
  - 2 = MODERATE: Home needs extensive repairs. Examples: twisted or cracked walls or ceilings, roof or wall damage, jammed front doors, partially off the foundation.
  - 3 = SEVERE: Home cannot be repaired. Examples: off its foundation, total collapse.
