

130 – Electoral Feasibility Studies

The purpose of this function is to partially fund studies which could potentially lead to CVRD Systems. In the past this function has funded water and sewer systems, as well as fire protection and micro energy projects. Once a function is created, it will pay the feasibility function back for the study. If a function is not created, the proponent is not expected to pay. Provincial Infrastructure Study funding may be available to fund up to \$10,000 towards a \$15,000 feasibility study.
