

520 - Solid Waste Management Complex

The role of the Solid Waste Management function is to provide solid waste planning and garbage disposal for the CVRD. This includes the operation of the regional recycling centers. Expense categories include operations (e.g. garbage export, recycling programs, wages, fuel and equipment, building and infrastructure maintenance) and capital (e.g. equipment replacement and landfill closure). The function is funded primarily through requisition, user fees (garbage and recycling disposal fees) and revenue from the collection and/or sale of recyclables. Capital expenditures are funded primarily through grants, reserve funds, or borrowing.
