

Transform Compost Systems

turning waste into an opportunity

January 13, 2012

Hi Bob,

RE: Coast Environmental Ltd. Operations Plan

I have reviewed the updated operations plan for Coast Environmental Ltd., updated January 13, 2012. The updates address the questions and recommendations that I have raised in my final report entitled, "Chemainus Composting Facility Review updated November 4, 2011", as well as the further questions and responses provided in an email to CVRD on December 19, 2011.

I am confident that if all measures are implemented as set out in the plan and required by the CVRD that this facility can operate at or above industry standards with minimal odour emissions.

Sincerely,

John Paul, PhD PAg
