Engineering Services General Manager Hired by the CVRD

Duncan, BC - The Cowichan Valley Regional District is pleased to announce the hiring of Hamid Hatami, P.Eng. as General Manager, Engineering Services, effective September 8, 2014.

The General Manager of the Engineering Services Department is responsible for providing leadership to all functions within the department including water management, recycling and waste management, capital projects, facilities, fleet and transit. In addition, the General Manager leads a department of skilled professionals through strategic and corporate priorities.

Mr. Hatami has over 25 years' experience in engineering in both the private and public sectors. He has a Bachelor of Science degree in Civil Engineering, a Masters in Environmental Engineering, and a PhD in Hydraulic Structures and is currently the Manager of Environmental Engineering Services for the City of Brampton, Ontario.
